Preface	xi
The Business Case for Java	1
The Evolution of Language	3
Write Once, Run Anywhere	4
Web Enablement	5
Java for Real Business: Java on All the Computers	7
Software Reuse	8
Programmer Reuse	9
Benefits of a Common Language	10
Figure It Out, Model It, Write the Software	14
Summary	15
The Business Case for Pure Java	17
“Pure Java.” What Does That Mean?	18
Why Is Pure Java Important?	20
Pragmatically Portable in Your Enterprise	22

One Program	23
Easier	24
Summary	26
Java Technology	29
Java: A Definition	30
Java Programs	31
Applets	32
Applications	34
Servlets	37
Comparison of Java Program Capabilities	39
JavaBeans	41
Enterprise JavaBeans	43
Enterprise Components	45
Different Beans for Different Purposes	47
Java Development Kit(s)	50
JDK 1.0	51
JDK 1.1	53
Packages Added at JDK 1.1	55
Java 2 (a.k.a. JDK 1.2) Enhancements	57
Security	57
JFC (Swing)	58
Java 2D	59
Other Java Platform Enhancements	59
Java Plug-In	60
Packages Added at Java 2	60
Extensibility	64
Java Virtual Machines	64
A Workable Business Strategy for Staying Current	65
Application Servers	69
Object-Oriented Software	71
PersonalJava	72
Java Card	73
ORBs	74
CORBA	75

Object Orientation for Business	79
Object Orientation for Business	82
Object-Oriented Concepts for Real People	84
Borrowing From Real Life	85
I Remember...	86
It's the Same, Only Different	87
Summary	89
Web Technology, Java, and Your Business	91
What Is the Web?	92
Web Enablement	93
Why Do It?	94
What Role Does Java Play?	96
Web Server	97
TCP/IP	99
HTML and XML	100
Sockets and Secure Sockets Layer Communications	102
Java: Digital Strategy and Tactics	105
How to Make a Strategy Successful	108
A Java Tactic	111
Business Benefits of a Unified Modeling Language	113
What Is a Modeling Language?	116
Why Should You Use a Modeling Language?	117
Business Modeling	119
Why UML Is the Right Choice	122
Introduction to UML	123
Put Java to Work in Your Business	129
Integration Through Java at Wesley Medical Center	131
Web-Application Servers and Sapien Health Network	138
Web-Application Servers Defined	142
The Importance of Web-Application Servers	145
Sapien Health Network and BEA WebLogic's Application Server	146

Contents

Using Java to Extend Enterprise Applications to the Web at Gilbarco 149
E-Commerce and Java 158
Summary 161

Java Will Change The World. 163
