 accessibility of, 179–180
 Alter Table Space dialog for, 188, **189**
 ALTER TABLESPACE to modify, 186–188, 232, 575, 788, 789
 automatic storage, 155, 167, 173, 182, 184, 231, 237, 786, 787
 backup/recovery and, 558, 610, 815, 820
 buffer pool for, 183, 187
 containers for, 167, 170–171, **171**, 175, 178–180, 181–182, 187, 232, 234, 788
 adding, with ALTER DATABASE, 190, 236, 237, 788–789, 788
 Create Table Space Wizard for, 184, **185**
 creating, and CREATE TABLESPACE for, 160, 180–185, 789
 Database Managed Space (DMS), 155, 166, 172–173, 172*t*, 179, 183, 186, 232, 237, 782, 788, 789
 Database Manager and, 172
 declared temporary tables and, 191, 238, 779
 DROP PENDING TABLESPACES and, 558, 610, 820
 event monitors and, 367*t*
 extent (round-robin pages) in, 167
 extent size for, 71, 175, 182, 233
 high availability disaster recovery (HADR) and, exact match between source/standby in, 592, 597, 617
 high water mark for, 175, 233
 I/O controller and latency in, 167
 LIST TABLESPACE CONTAINERS for, 178–180
 LIST TABLESPACES to get information on, 173–178, 232–234, 573, 782–784
 Load utility and, 475
 name of, 181, 187
 pages in, 167, 175, 179, 181, 187, 233
 prefetch and, 167, 175, 182–183, 187, 234
 privileges for, 640–641, **641**
 GRANTing, 656–657
 REVOKE/ing, 665
- QUIESCE TABLESPACES FOR TABLE and, 475
 quiescing, 176, 234
 recovery time for, 175, 234
 Restore Data Wizard for, 574, **575**, 574
 Restore utility and, 568, 569–570, 614

table spaces, *continued*

- Roll-forward recovery and, 822
- Roll-forward utility and, 577, 578–579
- SET TABLESPACE CONTAINERS and, 573–574, 612
- SHOW DETAIL option of LIST TABLESPACES and, 175–178, 233
- size of, 167, 175, 181, 182, 187, 188, 232, 233, 237
- snapshot monitor data on, 356
- state change in, 176
- states and hex values for, 174*t*, 235*t*, 778–779*t*
- SYSCATSPACE, 160, 166, 231
- System Managed Space (SMS), 75, 155, 166, 172–173, 172*t*, 179, 183, 186, 232, 782, 788
- TEMPSPACE1, 160, 165, 166
- transfer rate of, 167
- USE privilege, 641
- user temporary tables and, 191, 238
- USERSPACE1, 160, 166, 191, 238
- TABLE switch, snapshot monitor, 351*t*, 353
- tables, 9, 12, 155, 196–202, 238, 243, 244–245, **244**, 790
 - ALTER privilege for, 643
 - base, and views, 245, 282–289, **282**. *See also* views
 - child, 255–256*t*
 - columns in, 275
 - constraints used in, 245–273. *See also* constraints
 - CONTROL privilege for, 643, 644, 658
 - CREATE TABLE for, 197–198, 274–281
 - Create Table wizard for, 273, **273**, **274**
 - data types definitions for, 276–277*t*
 - declared temporary, 191, 238, 245, 779
 - DELETE privilege, 643
 - dependent or child, 255–256*t*
 - Design Advisor and, 320–322, **323**
 - event monitors and, 367*t*
 - Explain, 387–388, **387**
 - INDEX privilege, 643
 - indexes for. *See* indexes
 - INSERT privilege, 643
