

Contents

Preface to the Second Edition	xi
A Note About Source Entry	xiii
Chapter 1: Pre-Free-Format RPG IV	1
RPG IV	1
Extended Factor 2	2
Built-in Functions	2
Subprocedures	3
Other Changes	3
Some “Baggage” That Came Along.....	4
The Future	4
Chapter 2: The Case for Free-Format RPG	7
Easier to Read and Maintain	7
Good Field Naming	8
Indenting	10
Use of Comments.....	10
No Goto Operations	11
Conclusions.....	11
A “Modern” Programming Style.....	12
Free-Format RPG IV and C	12
Free-Format RPG IV and Java.....	13
Conclusions.....	14
Being “Current”.....	14
The Programmer’s Perspective	14
Management’s Perspective	15
Conclusions.....	15
Check It Out	15
Chapter 3: Introducing Free-Format RPG IV	17
The Free-Format Code Block.....	18
Coding Free-Format Operations	19

Naming Variables	19
Programming Style	20
A Note About Case	20
Free-Format Operation Codes	21
Evaluate	25
If	26
Controlled Looping	27
Mathematics	28
Character Strings	29
Programming Style Issues	29
Mixing Formats	29
Keyed Access	32
Named Indicators	33
Naming File Indicators	33
Summing Up	35
Chapter 4: Input/Output Using Free Format	37
Database Input	37
%Eof	38
%Found	39
%Error	40
%Equal	41
Data Area Input	42
Database Output	42
Write	43
Update	43
Delete	43
Except	44
Workstation I/O	44
Write/Read	44
Write	45
Read	45
ICF I/O	45

Dsply.....	46
Printer Output.....	47
Overflow Indicator.....	47
Write.....	47
Except.....	47
Chapter 5: Program Flow Using Free Format	49
The If Group.....	49
If.....	49
Else.....	52
Elseif.....	52
Endif.....	52
The Do Operations	53
Do While.....	53
Do Until.....	54
Dow and Dou Differences.....	54
For.....	55
Loop Interrupt.....	56
Leave.....	57
Iter.....	57
The Select Group.....	58
Select.....	58
Operations Absent in Free Format	59
Chapter 6: Embedded SQL Operations Using Free Format.....	61
Database and Embedded SQL.....	61
Fixed-Format Method.....	61
Free-Format Method.....	63
Chapter 7: Data-Manipulation Operations Using Free Format	65
Assignment Statements	65
Eval Operation: Numeric.....	66
Eval Operation: Character.....	67

Evaluate Right (EvalR) Operation.....	68
Eval Operation: IS,OC.....	68
Evaluate vs. Move.....	69
Built-in Functions.....	69
Converting Decimal to Character.....	70
Converting Character to Packed Decimal.....	71
Substringing.....	72
Replace.....	73
Scan and Replace.....	74
Concatenation and Trim.....	75
Converting Character to Integer.....	76
Extracting Size, Length, and Decimal Positions.....	77
Number of Elements.....	78
Looking for Something?.....	79
String Translation.....	80
Combining Built-in Functions.....	81
Date and Time Operations.....	82
Converting Numbers to Date and Time.....	83
Converting Date and Time to Character or Decimal.....	83
Date and Time Arithmetic.....	84
Chapter 8: Math Operations in Free Format.....	87
Expressions in Assignment Statements and Elsewhere.....	87
Four-Function Math.....	88
Short-Form Math.....	88
Exponentiation.....	90
Precedence.....	91
Mathematical Expressions Elsewhere.....	92
Eval Differences in Fixed and Free Format.....	92
Naming Variables.....	93
Semicolon.....	94

Free-Format Math in RPG IV	94
Numeric Data Types	95
Changing Data Type	95
Chapter 9: Call and Return in Free Format.....	97
Call Prototyped (CallP) Operation	97
Dynamic Call	98
Bound Call	99
Parameter-Passing Options.....	100
Value.....	100
Const	101
Options(*NoPass).....	101
Options(*Omit)	101
Options(*Varsize).....	101
Options(*String).....	102
Options(*RightAdj).....	102
Options(*Trim).....	102
The Return Operation	104
Subprocedures.....	104
Accessing APIs.....	105
API Examples	106
Chapter 10: Solutions for Problem Situations.....	109
Solution for the Fixed-Format MoveA Operation	109
History	109
The Free-Format Solution.....	110
The %Subarr Built-in Function	112
Solution for the Fixed-Format Move Operation.....	113
Breaking It Down.....	113
When Both Fields Are Character	113
Data Type Differences	115
Solution for the Fixed-Format MoveL Operation.....	115
Breaking It Down.....	115

When Both Fields Are Character	115
Solution for the Case Operation	116
Solution for the Do Operation	118
The Do Syntax	118
The Free-Format Solution	118
Error-Handling Techniques	119
The Monitor Solution	120
ILE Exception Handler	121
Chapter 11: Sample Programs	123
An Investment and Loan Utility Program	123
A Customer Inquiry Program	128
A Customer Data Entry Program	129
A Sales Report Program	135
Appendix A: Free-Format Operations	141
Expression Operators	141
Operation Extenders	143
Free-Format Operations	143
Appendix B: Example Screens, DDS, and Programs	175
Investment and Loan Utility Program	175
Customer Inquiry Program	179
Customer Data Entry Program	182
Sales Report Program	190
Appendix C: Free-Format Alternatives for Fixed-Format Operations	197
Index	203
