

Contents

Chapter 1:	Introduction	1
	WebSphere Portal	2
	Portal Applications and Portlets	3
	IBM Portlet API, JSR 168, and Other Tools.	3
	More about Tools	4
	Installing the Portal Toolkit.	5
	Required Skills	6
Chapter 2:	Writing Your First Portlet	9
	Anatomy of a Portlet	9
	Starting Hello World	11
	Building Hello World with the Portal Toolkit.	17
	Running Your First Portlet in WebSphere Studio.	29
	Examining Hello World	31
	Conclusion.	33
Chapter 3:	Expanding Your First Portlet.	35
	Using JSPs within a Portlet.	35
	Reacting to User Clicks.	48
	Portlet Session.	70

Chapter 4:	Portlet States and Modes	73
	Window States	74
	Detecting Window State	76
	DoMode() Methods	79
Chapter 5:	Creating Advanced Portlets	93
	Portlet Menus	94
	Designing the Portlet	98
	Creating the Views	107
	The XSLT Portlet	111
	Conclusion	115
Chapter 6:	Languages and Markups—Deutsch, Francais, Espanol?	117
	Internationalization and Localization	118
	Language Support within a Portlet	124
	Sharing Property Files across Multiple Portlets	127
	Changing a Language Dynamically	127
	Building the Language Portlet	128
	A Word about Bidirectional Languages	134
	Building a Portlet for Multiple Devices	135
	Conclusion	136
Chapter 7:	Portal Services	137
	What Are Portlet Services?	137
	Types of Services	138
	Service Factories	138
	Designing the Service	139
	Creating and Testing the Service	141
	Installing and Configuring the Office Lookup Service	147
	Creating the Portlet	149
	Data Caching	167
	Conclusion	170
Chapter 8:	Struts Portal Framework	171
	Model-View-Controller Review	171
	The Struts Aware Portlet	184
	Let's Build a Portlet	197
	Conclusion	226
Chapter 9:	Security and the Credential Vault	227
	Single Sign On Overview	227
	Introduction to the Credential Vault Service	229
	Summary	252

<i>Appendix A:</i>	Introduction to JSR 168	255
	Hello JSR 168 Portlet API	255
	Examining Hello JSR 168 World	258
	Using JSP in JSR 168	260
	Using JSR 168 versus the IBM API	261
<i>Appendix B:</i>	Setting Up a Development Environment Using WebSphere Studio	263
	Overview of the Build and Deploy Process	263
	A Functional Development Environment	265
	A Word about Standards	267
	Source Code Management	269
	Which Repository Should I Use?	271
	Setting Up your Portal Development Projects	272
	The Build Process	274
	Continuous Integration	277
	Automating Deployments with Ant	277
	Final Thoughts.	279
